WORK EXPERIENCE

RED HAT | ASSOCIATE SOFTWARE QUALITY ENGINEER

Jan 2022 - Present

- Developed a **Python** based **Google Chat Bot** for reporting and analysis of automation runs to the stakeholders.
- Refactored automation pipeline for **OpenShift Operator** Certification **reducing runtime by 40%**.
- Automated E2E testing of services crucial for certification of **9000+ products** listed on Red Hat Catalog.

RED HAT | INTERN

Jul 2021 - Dec 2021

- Containerized the **YUM package repository** used internally for **RHEL Hardware certification** packages.
- Created automation pipelines for RHEL certification of VM instances on **GCP** and **Azure**.

TAIYO AI | SOFTWARE ENGINEER

Sep 2019 - Jun 2021

- Created a **risk analysis** & raw material procurement dashboard using **Grafana**, **Django**, and **PostgreSQL**.
- Developed an API aggregator for technical indicators covering **2500+** companies listed on US stock exchanges.
- **Intergrated data streams** for macroeconomic indicators, international trade volume, and maritime traffic.

PROJECTS

SEARCH ENGINE FOR ONLINE COURSES

FLUTTER, DART, FIREBASE, ANDROID DEVELOPMENT

- Review-based **mobile application for searching online courses** provided by different platforms.
- Stored details of **1000+ online courses** provided from multiple platforms alongwith their reviews and upvotes.

STOCK PORTFOLIO STRATEGY SIMULATION

PYTHON, PLOTLY, MACHINE LEARNING

- Simulation and performance analysis of different stock portfolio optimization algorithms.
- Backtesting of all strategies on **11 years of intraday stock market data** and technical indicators.

DATA ANALYSIS PLATFORM

DASH, DJANGO, WEB DEVELOPEMNT

- Web platform for visualization, cleanup and exploratory data analysis.
- Packaged tools provided in **pandas** and **scikit-learn** Python libraries into GUI modules.

OPEN SOURCE CONTRIBUTIONS

- Added statsmodels plugin to CHRIS project, a distributed data and computation platform
- Containerized examples for hamilton, a micro-framework for creating dataflows
- Minimized complexity and improved performance of hyperlink parsing by 7 folds on Flakerizer

EDUCATION

Bachelor of Technology in IT

Jun 2021

GURU GOBIND SINGH INDRAPRASTHA UNIVERSITY

Coursework: Operating Systems, Database Management Systems, System Design, Data Structures and Algorithms

SKILLS

Programming Languages: Python, C++, JavaScript, SQL, Bash, Java

Frameworks: Tekton, Scikit, TensorFlow, Django, Flask

Technology: Kubernetes, Docker, Git, OpenShift, PostgreSQL, MySQL, SQLite

Platforms: GNU/LINUX, AWS, GCP, IBM Cloud
